SUMMARY

B.Tech Cyber Security student (graduating April 2027) with hands-on project experience spanning security operations, data analytics, and full-stack development. Built a real-time Network Intrusion Detection System with a Flask alert dashboard, a multi-source Power BI mobility analytics platform integrating 5 public datasets, and a production-style Flask authentication system with MFA/JWT. Comfortable across Python, SQL, Power BI, Tableau, and JavaScript/React. Seeking Data Analyst, SOC Analyst, or Web Developer roles where I can apply this cross-functional foundation.

CORE SKILLS

Data Analytics & BI: SQL, Python, Power BI, Tableau, Excel, Google Sheets, Data Visualization, Dashboard Development, Multi-Source Data Integration, MATLAB
Cybersecurity / SOC: Network Security, Vulnerability Assessment, Phishing & Threat Detection, Intrusion Detection (IDS), Digital Forensics, Social Engineering Awareness, Log/Alert Monitoring, SQL Injection Fundamentals
Web Development: HTML, CSS, JavaScript, React.js, Flask (Python), REST-style APIs, JWT Authentication, Password Hashing, TOTP-based MFA
Platforms & Tools: Linux, Windows, Unix, macOS, Git/GitHub, Web Scraping, Google Cloud (Cybersecurity track), Oracle Cloud Foundations, Rocon-ng, the Harvester, Maltego, spiderfoot, exiftool, nmap, nessus, Nikto, enum4linux, Scapy, Wireshark, SET, Empire, Ettercap, Yersinia
Soft Skills: Teamwork, Problem-Solving, Communication, Fast Learner

EXPERIENCE

Data Analyst | Infosys Springboard 7.0 *Jul 2026 – Sep 2026*

- Designed and built a Smart Mobility Analytics platform in Power BI, integrating Delhi Bus GTFS, Delhi Metro GTFS, traffic, weather, and demographic datasets into a single data model.
- Built 5+ interactive Power BI dashboards translating multimodal transit and demographic data into ridership, traffic, and demand insights for stakeholder review.

Cybersecurity Intern | Hack Secure *Dec 2025 – Jan 2026*

- Completed structured, guided cybersecurity training assignments covering core industry-standard practices in threat awareness and network fundamentals.

Cybersecurity Intern | AICTE *Jul 2025*

- Gained applied exposure to network security concepts and vulnerability assessment methodology through AICTE-affiliated internship coursework.

PROJECTS

- **Network Intrusion Detection System (IDS) — Python, Flask:** Built a real-time network monitoring tool that detects port scanning, brute-force login attempts, and DoS-pattern behavior, persists structured alerts, and surfaces them through a Flask web dashboard. [GitHub]
- **Secure Authentication System with MFA — Flask, JWT:** Built a Flask-based authentication service with TOTP multi-factor authentication, secure password hashing, and JWT session tokens. [GitHub]
- **Delhi Smart Mobility Intelligence Platform — Power BI:** Integrated Delhi Bus GTFS, Metro GTFS, traffic, weather, and demographic data into a mobility analytics dashboard for city-planning use cases. [GitHub]
- **Digital Hygiene Companion — Python:** Built an AI-assisted safety tool that flags phishing attempts, suspicious URLs, social engineering, and credential-theft patterns with a privacy-first design. [GitHub]
- **Network Sniffer — Python, Scapy:** Built a packet capture and analysis tool for inspecting live network traffic. [GitHub]
- **Currency Authentication System:** Built a simple Indian currency authentication prototype using synthetic training data and basic image analysis techniques. [GitHub]
- **VELTRON Automotive:** Immersive digital showroom for a fictional ultra-luxury performance automotive brand, built as a cinematic scroll experience around an original open-wheel hypercar in real-time 3D. [Live]
- **AURELIS HOROLOGY:** Immersive website for a fictional independent luxury watchmaker, built as a digital haute-horlogerie experience. [Live]
- **NESTORA:** Real-estate website designed around the concept “Find a place worth coming home to.” [Live]
- **FORGE ATHLETICS:** Premium gym and fitness website with a dark, cinematic, and fully interactive design. [Live]
- **Dine-Luxe — React, Tailwind CSS, Framer Motion:** Premium cinematic luxury fine-dining website with sophisticated animations, editorial typography, and a dark luxury aesthetic. [Live]

CERTIFICATIONS & TRAINING

- Cisco Networking Academy: Ethical Hacker, Data Analytics Essentials
- EC-Council: SQL Injection Attacks; Introduction to the Dark Web
- Google Cloud: Career Launchpad Cybersecurity Track
- Oracle: Certified Foundations Associate
- Infosys Springboard: Cloud Technologies, Data Visualization in Power BI

- LinkedIn Learning: Career Skills in Data Analytics; Microsoft Azure AI Essentials & Machine Learning on Azure
- HP LIFE: Data Science & Analytics; Introduction to Cyber Security Awareness
- MathWorks: MATLAB Onramp, Simulink Onramp, Simscape Battery; Wadhwani Foundation: Problem Solving and Innovation
- LinkedIn: Business Analysis, Azure AI Essentials and ML, Data Analytics; AWS: Cloud Foundations Training
- Skill India: Supply Chain Management
- Other: Certified LLM Security Professional (CLLMSP), Certified Cybersecurity Educator Professional (CCEP), Red Team Leaders

EDUCATION

B.Tech, Cyber Security | Poornima University Jul 2023 – Apr 2027 (Expected)
10th & 12th (Science – Math) | Paramount Public School 10th: 82% | 12th: 72%

ACHIEVEMENTS

- Google Cloud Skills Boost Arcade — Legend Tier (99 Arcade Points; completed multiple hands-on Google Cloud labs)
- Hackathons: HackSecure X International Hackathon 2026, OneEarth International Hackathon 2025 (Finalist), Bharatiya Antariksh Hackathon 2025 & 2026, AI for Bharat, Rajasthan Digifest x TiE Global Hackathon, Cyber Apocalypse CTF 2026
- Virtual Job Simulations: TATA (Cybersecurity/GenAI Data Analytics), Mastercard (Cybersecurity), Deloitte (Cyber/Data Analytics), ANZ (Cyber Security Management), AIG (Shields Up: Cybersecurity), J.P. Morgan (Investment Banking/Software Engineering)
